

## Module 0 “ Social Initiatives through Social Economy Approach’

### Topics For Active Discussions as Group of Fresh Volunteers

The Modules been provided through this Grundtvig Learning Partnership are based on peer learning strategy in a broader sense : It is learning from experience , from good practices , from relevant or absolutely different environments which deals with the same concepts in a European and global perspective In that way we believe , that we can connect peers to get inspired for local changes .

In order to facilitate this process we detected web sources able to stimulate our discussions within workshops to fresh volunteers .

#### Stimulating Phrases

*The Social Economy narrows the gap between rich and poor.”*
